Answers for Aristotle: How Science and Philosophy Can Lead ...

Answers for Aristotle: How Science and Philosophy Can Lead Us to a More Meaningful Life by Massimo Pigliucci. Science provides us with a perspective on the world, not with a God's-eye view of things. It gives us an irreducibly human, and therefore to some extent subjective—yet certainly not arbitrary—view of the universe. Massimo Pigliucci

Answers for Aristotle: How Science and Philosophy Can Lead ...

Aristotle wrote as many as 200 treatises and other works covering all areas of philosophy and science. Of those, none survives in finished form. The approximately 30 works through which his thought was conveyed to later centuries consist of lecture notes (by Aristotle or his students) and draft manuscripts edited by ancient scholars, notably Andronicus of Rhodes, the last head of the Lyceum ...

Aristotle | Life, Works, Doctrines, & Facts | Britannica

This was the nucleus of Aristotle's concept of political science as a science of human action. The Science of Human Action. The concept of action, as Aristotle understood it, includes both what men do and what they ought to do. Today we can distinguish between "behavior" and "action." Behavior is something man has in common with animals.
