Financial markets view the A\$ as a risk currency - it's sold off in times of heightened uncertainty - and has a high growth beta - only bought in times of global prosperity. ... The Australian Journal of Financial Planning.

**A\$ on the up and up | Financial Standard**

The growth in sustainable index funds shows no sign of abating as assets under management double to US\$250 billion in just three years. That is according to research firm Morningstar, highlighting the changing attitudes of investors bending toward ESG-conscious products, which has been particularly heightened during the global pandemic.

**Sustainable ETF demand skyrockets | Financial Standard**

ASIC has been granted interim orders against Mayfair 101 founder James Mawhinney which will stop him siphoning any money out of Australia. The orders also restrain Mawhinney from advertising or promoting any financial product, meaning his work with Mayfair 101 and the Dunk Island/Mission Beach development the group has been promoting to the bitter end is likely over for now.
