11. FISCAL POLICY AND THE CROWDING-OUT EFFECT The Crowding-out effect indicates that the increased borrowing to finance a budget deficit will push real interest rates up and thereby retard private spending, reducing the stimulus effect of expansionary fiscal policy. The implications of the crowding-out analysis are symmetrical.

Chapter11 fiscal policy - LinkedIn SlideShare

Chapter Overview This chapter explores the tools of government stabilization policy in terms of the aggregate demand- aggregate (AD-AS) model. Next, fiscal policy measures that automatically adjust government expenditures and tax revenues when the economy moves through the business cycle phases are examined.
