Floor drain: the washing machine should be installed where a floor drain or hole is located (depending on plumbing regulations). A floor drain is required to drain away water which may overflow from the washing machine due to a hose leak or malfunction. The drain hose must not be kinked. The drain hose may be extended to a maximum of 4 metres.

I've got a small problem with a EWF1080 Front loader Washing machine,it times out on the first fill of water,gives a E10 code,and requires a reset button operation to get it to continue filling water and then its alright. I've checked water pressure and had a general look under the bonnet,its either a board fault that has changed a timing thing or a level sensor problem,either way its still ...
