What I am trying to say here is that since all the people of paradise, who will be spread all over the universe will see Allah (SWT) at the same time, it suggest 2 things: 1. Allah (SWT) must be big enough for all of us to see him at the same time. 2. Light must be travelling much faster than it travels in this current universe.

How much bigger is Allah SWT compared to the Universe ...

The expansion of the universe is one of the most important pieces of evidence that the universe was created out of nothing. Although this was not discovered by science until the 20th century, Allah has informed us of this reality in the Qur'an revealed 1,400 years ago:

In trading, the term volume represents the number of units that change hands for stocks or futures contracts over a specific time period. Traders rely on it as a key metric because it lets them know the liquidity level of an asset, and how easily they can get into or out of a position close to the current price, which can be a moving target.

Understanding Volume Analysis in Day Trading

“Allah is He who created seven Heavens, and of the earth the like of them; the decree continues to descend among them, that you may know that Allah has power over all things and that Allah indeed encompasses all things in (His) knowledge.”(Surah at-Talāq 65:12) We must acknowledge that Allah (S.w.T.) is the creator of the Heavens.
