Thomas Telford FRS, FRSE was a Scottish civil engineer, architect and stonemason, and road, bridge and canal bullder. After establishing himself as an engineer of road and canal projects in Shropshire, he designed numerous infrastructure projects in his native Scotland, as well as harbours and tunnels. Such was his reputation as a prolific designer of highways and related bridges, he was dubbed The Colossus of Roads, and, reflecting his command of all types of civil engineering in the early 19th

### Thomas Telford - Wikipedia

Julian Glover now brings forward the man behind the name. There is brilliance and beauty in Thomas Telford's work. With his revolutionary vision, Telford invented the modern road and created the backbone of our national road network, tying England, Scotland, Ireland and Wales together, resulting in his being dubbed 'The Colussus of Roads'.

### Man of Iron: Thomas Telford and the Building of Britain ...

It was in this area that he first worked with iron, building a bridge at Buildwas to replace one washed away in a great flood in 1795 – the original iron bridge at Ironbridge had been standing for several years, but Telford's was a much more efficient version, as he began to really grasp what made building in iron different from wood or stone.

### February 2018 - Adventures in the Age of Sail

Thomas Telford began his working life as a shepherd in Scotland, later becoming an apprentice stone mason, before finally starting his journey into a professional career as a surveyor. He began work on the Menai Suspension Bridge in 1819; it was completed and opened on January 30, 1826.
