After analyzing negotiation research from around the world (sounds like my dream job), the Program on Negotiation at Harvard Law School recently outlined four of the critical ways that power impacts negotiations: Power Prompts Action. Power, whatever its source, pushes negotiators to be more proactive throughout their negotiations – whether it's making the first offer, deciding to negotiate a received offer rather than accept it as-is, or working through an impasse.

**Power in Negotiation: Why You Need it and How to Get It ...**

Power Negotiators realise that you're usually better off if you can get the other side to commit to a position first. There are several obvious reasons to adopt this approach: Their first offer might be much better than you hoped. It gives you information about your counterpart before you have to disclose anything.
