Stuart Holloway is a founder and president of Cognitect (formerly Relevance). He is a Clojure committer, and a developer of the Datomic database. Stuart has written a number of books and technical articles. Of these, he is most proud of Programming Clojure.

### Programming Clojure (The Pragmatic Programmers): Miller ...

Stuart Holloway glosses over Clojure's fundamental language paradigms, like functional programming, recursion, and Java. While I suspect it would be near impossible to explain functional programming without devoting an entire book to it, Stuart Holloway doesn't even try, instead hoping that the reader will magically figure it out on his own.
