performance, ensures that personnel follow prescribed policies and corrects system problems or policy infractions as they occur.

### **What is SOA governance? - Definition from WhatIs.com**

SOA Governance It is a notable point to differentiate between IT governance and SOA governance. IT governance focuses on managing business services whereas SOA governance focuses on managing Business services. Furthermore in service oriented organization, everything should be characterized as a service in an organization.

### **Service-Oriented Architecture (SOA) - W3Schools**

SOA Governance is a set of processes used for activities related to exercising control over services in a service-oriented architecture (SOA). One viewpoint, from IBM and others, is that SOA governance is an extension (subset) of IT governance which itself is an extension of corporate governance.

## **User Ahmed MANSOUR - Stack Overflow**

I understood the reason for change (to Service Interface with multiple operations) was to cater for SOA (or ESOA) progression. Using that as my perspective, if you would want to add a new Soap Action then the service provider would simply add a new operation & then you could simply re-gen your client proxy.
