Science Stemsscopes Answers "STEMscopes is great. Until we began using STEMscopes, students didn't understand that science is everywhere. In kindergarten through fourth grade, they thought science was a book. They didn't see science as being connected to the real world, so they thought that when they left school they'd never use it again.

Every STEMscopes Math lesson is built from the ground up to the standards. Chunking information into bite-size pieces, we make our units (called "scopes") digestible and engaging. On average, a scope takes one to two weeks.

A Fresh Take on Math | STEMscopes Math Curriculum

STEMscopes has greatly helped me incorporate engaging, exploratory, and hands-on activities into my science lessons. Instead of "old school" teaching techniques that heavily utilize boring science books and comprehension questions, this curriculum provides teachers with fully prepared lessons that allow students to be more engaged and play active roles in their learning.
