(PDF) The Introvert Advantage: How Quiet People Can Thrive ...

Introverts, on the other hand, recharge through seclusion and tend not to be lonely when alone. An introvert may look forward to a quiet evening at home with the same zeal as an extrovert who anticipates an evening out with friends. The extrovert is geared toward activity, the introvert toward contemplation.

How Introverts Thrive in Quiet

I've known for a long time now that I'm an introvert—a person who's easily drained by social situations and who needs lots of quiet, reflective time in order to recharge. Nobody really seems to be exactly sure as to the number of introverts in the world today, but this book puts it at about 25% of the population.

The Introvert Advantage - Page-A-Day

An introvert is likely to enjoy time spent alone and find less reward in time spent with large groups of people. Introverts are easily overwhelmed by too much stimulation from social gatherings and engagement, introversion having even been defined by some in terms of a preference for a quiet, more minimally stimulating external environment.

Extraversion and introversion - Wikipedia

Introverts like to take their time to reflect on and process a decision properly so that they can choose the best course of action that they won't later regret. 4. Introverts are generally better listeners. The “quiet ones” tend to really listen and consider the ideas and feelings of others.
